

APPLE PRESSING KIT FOR HIRE

All you need to make homemade apple juice (or to start Cider!):

Apple Mill - Efficient, safe to use, mill to crush apples ready for the press – connects to mains electric

40 litre hydro-press - works with water pressure to press apples – connects to garden hose

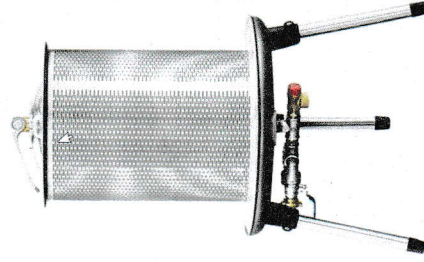

2 pasteurising units – each will pasteurise 12x 750ml bottles – connects to mains electric

A great way to use surplus apples:

- Fresh apple juice will keep for 2-3 days in the fridge
- Pasteurised juice will store for 6mths – 2 years

All you need is apples and/or pears and some empty bottles!

Special Offer
